

Dear Parents/Guardians:

Food allergies affect children with symptoms ranging from itching or a rash to severe allergic reactions. There is a system in place whereby your child's food allergy can be noted on your child's lunch account.

Please complete the form below and return it to the school nurse. The nurse will send a copy of the form to the Chartwells Dining Services Director and the allergy information will be entered into the computer system by Chartwells' personnel. When your child enters his/her ID number upon point of sale, in addition to your child's name, photo and account balance, a "Dietary Notice" of food allergies will appear.

The nurse will enter food allergy information onto your child's health record.

It is hoped that this service will assist with the health and well being of your child. However, this service is not intended to replace parental responsibility for insuring that their child makes appropriate food selections from the school cafeteria.

Sincerely,

Lauren Barry  
Director of Dining Services
